

SUBJECT ENRICHMENT ACTIVITY

Class X

Social Science

Prepare a report on consumption of various resources in your locality

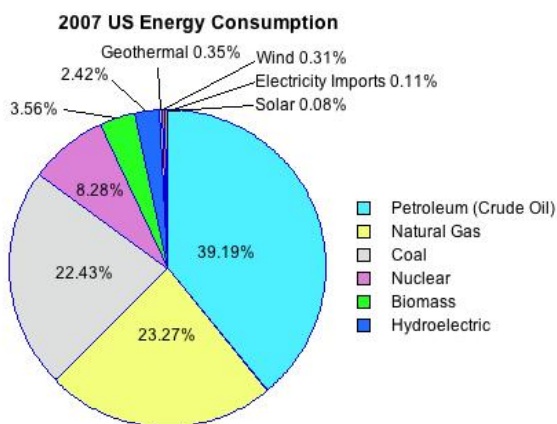

Overview:

- You have to prepare a report for resource consumption going on in your locality on a daily basis.
- You need to search the details over internet and you need to collect data as per your need.
- After collecting various data you need to make a table containing various sub fields.
Example...

	Material Processing		Production		Transportation	
	Conventional	Recycled Thermoplastic	Conventional	Recycled Thermoplastic	Conventional	Recycled Thermoplastic
Electricity	25%	49%	75%	51%	0%	0%
Fuel	68%	11%	19%	5%	13%	84%
Water	71%	2%	29%	98%	0%	0%
Carbon Emissions	53%	42%	43%	44%	4%	14%

- From the data fitted in the table you need to finally prepare a pie chart mentioning all the details.

Example

- Write necessary conclusion for your project.

Guidelines:

- Use A4 papers for doing the project. (within 4-6 pages)
- For finding different consumption of resources you can find them in internet as :
https://www.google.com/search?q=consumption+of+electricity+in+bangalore&rlz=1C1CHBD_enIN813IN813&oq=consumption+of+electricity+in+bangalore&aqs=chrome..69i57.15087j1j8&sourceid=chrome&ie=UTF-8
- Use different pictures found in internet to support your content.
